Verona, 24 August 2015

### Disclosure Statement

I declare that I have no relevant or material financial interests that relate to the research described in the co-authored paper submitted to the JEP under the title “The Preference for Belief Consonance”. My work in this project has benefited from financial support from my Econ Department in Verona and from a 9,000 euros research grant offered by EIEF (Einaudi Institute for Economics and Finance), a research institute funded by the Bank of Italy and based in Rome that seeks to foster high-quality research in Italy. This grant will be properly acknowledged in the final version of the paper.

Luca Zarri

Associate Professor  
Economics Department  
University of Verona  
Viale Università 3  
37129 Verona (Italy)
