RE: Disclosure Statement for "Technology and Child Development: Evidence from the One Laptop per Child Program"

I declare that I have no relevant or material financial interests that relate to the research described in this paper.

IRB approval was not obtained since the intervention was funded and implemented by the Government of Peru and the data collection and analysis was funded entirely by the Inter-American Development Bank. These institutions do not have an IRB approval process.

A handwritten signature in black ink that reads "Santiago Cueto". The signature is written in a cursive style and is underlined with a single horizontal line.
