

## **American Economic Journals Disclosure Statement**

(Please include one for every author of the paper.)

Date:

9/14/2018

Author Name:

Mark R. Cullen

Manuscript Title:

“Estimating the Value of Public Insurance Using Complementary Private Insurance”

Disclosure Statement:

Primary support for this work was provided by the National Institute for Aging through grant RO1 AG026291 (Cullen PI) entitled Disease, Disability and Death in an Aging Workforce. Prior to September 30, 2016 Alcoa, Inc. also provided support for a portion of this work and a portion of Dr. Cullen’s support through a contract with Stanford. As of October 1, 2016 there are no financial relationships between the company and any investigator associated with this study. Research projects must receive Alcoa’s approval in advance; once approval is granted, ex post the company has the right of review the manuscript only for accuracy and for the non-divulgence of proprietary information, not for the content or conclusions.
