

**Disclosure Statement**

Naomi Hausman  
Hebrew University of Jerusalem  
December 19, 2019

This statement is to disclose information regarding my affiliations and financial support while writing the paper “Physician Practice Organization and Negotiated Prices: Evidence from State Law Changes,” co-authored with Kurt Lavetti.

I received no financial support directly for the production of this research. However, as the production of the paper spanned several years, I received support from a number of grants either for other specific projects or for the general support of my research. They include: NBER Innovation Policy Post-Doctoral Fellowship, Falk Institute Research Grant (2012, 2013), Golda Meir Fellowship, NBER Digitization and Copyright Research Grant, US-Israel Bi-national Science Foundation (BSF) Grant (2014-2016; 2016-2018), Eshkol Research Grant (2014, 2017), German-Israel Foundation (GIF) Grant, Israel Science Foundation Grant.

Among the data sources used for this paper were the confidential Longitudinal Business Database (LBD), Standard Statistical Establishment List (SSEL), and Economic Censuses (EC) of the U.S. Census Bureau. I accessed the data via the Boston RDC. The Census Bureau reviewed the results released from the RDC to ensure no confidential information was disclosed, as per their usual procedure.
