For William Bosshardt

I have nothing to disclose about relevant interest from other parties about this study. IRB approval was not sought for this study because we used only a secondary and restricted-use dataset (Baccalaureate and Beyond survey: <https://nces.ed.gov/surveys/b&b/>) that was prepared by the National Center for Education Statistics (NCES) at the U.S. Department of Education. NCES has Federal policies and regulations for users of restricted-use datasets that require approval of a site license application to use the dataset. All data are anonymous. An NCES security officer also reviewed the paper and approved the public dissemination of the paper and data from the dataset used for the paper.
